

# 2nd FAIR Annual Forum

**fair**

forum for anti-doping  
in recreational sport

The second FAIR Annual Forum took place in Brussels the 21st November 2018.

Representatives of the sport food industries, anti-doping authorities, the European Committee for Standardization, the European Commission, professors and fitness associations and other stakeholders took part in a very interactive and fruitful Forum which reported on the research findings on effective interventions for anti-doping in recreational sport. There was also an update on the position of current understanding in developing standards and procedures for supplements and foods intended for use by sportspeople.
